

VacuBerm Water Reclamation Tools

VacuBerm™ Wash Water Reclaim Tools

Compliance with strict environmental laws is not an option! Not to worry... Just attach an industrial wet/dry vacuum to the **VacuBerm** and place in the path of water runoff. Waste water can then be quickly reclaimed, and pumped away. **VacuBerm** allows you to work hassle free anywhere, anytime. The patented **VacuBerm** is the smart solution to compliance issues. They are **inexpensive, very durable and easy to use.**

SandSnakes DrainCovers & many other accessories are also available.

Complete systems are also available with **automatic pump out to 100+ gpm.**

...and **filtration** for **Re-Use** with **cleanable filters!**

Distributed By:

MODEL	LENGTH	LIFT MIN.	CFM	GPM
VB- 4	4ft.	50" H2O	100	3 to 5
VB- 6	6ft.	50" H2O	135	4 to 6
VB-10	10= 6+ 4'	50" H2O	200	6 to 12
PS-1	7" triangle	50" H2O	50	5 to 10

These ratings are estimates for predictable performance... Higher vacuum gets bigger results. Used correctly, these tools perform, persistently.
